Percentage of GB rockets destroyed to date	60.8
Percentage of GB bombs processed to date	63.2
Percentage of total agent tons destroyed	12.31
Number of igloos emptied	27

UMCDF Operations

- Safety is number one at UMCDF: employees have worked 502 days since the last lost-workday accident (Oct. 22, 2004).
- Began processing "leaker" rockets, March 7. Six leakers were processed March 7 and seven March 8.
- The Metal Parts Furnace (MPF) Agent Trial Burns were postponed due to maintenance on the furnace-to-afterburner expansion joint where a hole was discovered (see photo below). Temporary repairs were made and the ATBs are scheduled to begin next week.

*Leading the
Way to a Safer
Future*

The Umatilla Chemical Agent Disposal Facility is safely destroying the stockpile of weapons stored at the Umatilla Chemical Depot while ensuring maximum protection for our workers, our community and our environment.

CREATING A SAFER TOMORROW
